

# IMPROBABLE COLLAPSE

The Demolition of our Republic

*Improbable Collapse* is the first film to thoroughly review the evidence for WTC demolitions from a scientific perspective.

The film dismantles the official story that three World Trade Center buildings collapsed from fire and damage alone, using the government's own reports and the research of Physics Professor Steven Jones, Kevin Ryan and Jim Hoffman. The mechanism of the building collapses proposed by the US government investigations is extremely unlikely, hence the title of the film.

*Improbable Collapse: The Demolition of our Republic* will screen at 7:30 PM at the:

DEMOCRACY CENTER

45 Mt. Auburn St.

Harvard Square, Cambridge  
Saturday, April 21, 2007

Discussion and Q&A to follow with:  
Mike Berger, Director, and Media  
Coordinator for 911truth.org

Presented by: BOSTON911TRUTH
